

IAN CONRAD BAARDE

Aspiring Web/Software
Developer

ABOUT ME

I am a technophile ever since I was 7yrs old who constantly tinkers any electronic device that are in my possession and try to fix and improve it's features. I always try to improve my skills and learnings to be able to keep up with the developing Information Technology field. I am profoundly confident with what skill I have acquired so far to be able to contribute large sums of it for the company.
